Heritage Planning: exchange of experiences

- Projects - Croatia - Trogir/Sarlat-la-Canéda -

Date de mise en ligne : Thursday 1 August 2013

**Association Nationale des Villes et Pays d'Art et d'Histoire et des Villes à
Secteur Sauvegardé et Protégé**

It is about technical exchanges in order to support and sustain the process of implementation of a management and development plan of the historic center of Trogir.

This work, led throughout 2008, needed European funding.

He perpetuated exchanges with French professionals involved since December 2007 (French Architect, architects from Split, responsible for municipal technical services of both cities).

In the long time, exchanges will concern:

- conduct joint workshops on urban development (networks, paving, signage ...)
- joint reflection about maintaining economic activity in the old center
- sensitize people to the urban project through heritage mediation
